

# Enterprise Backup powered by Asigra

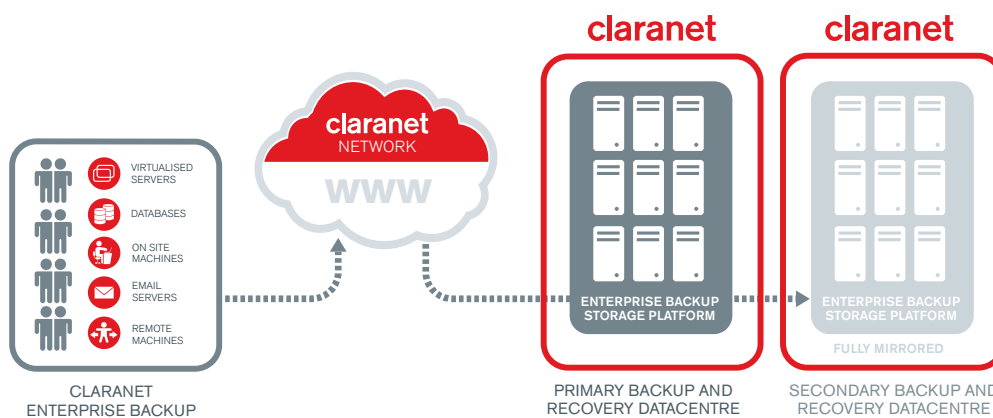

## Comprehensive, enterprise-class backup and restore

A secure, fully automated, flexible and reliable solution to protect your most important asset.

### Why choose Claranet for Enterprise Backup?

- 14 years of experience and expertise in Disaster Recovery and Business Continuity solutions
- Hosted in two mirrored UK-based data centres for complete security, resiliency and compliance
- 24x7x365 UK support

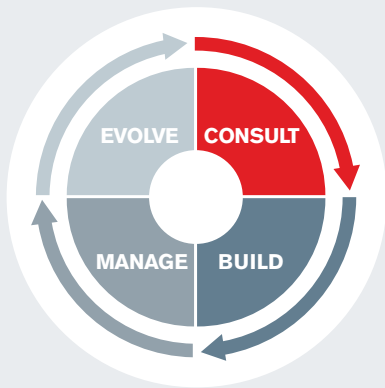

### Enjoy complete peace of mind by automating the entire backup process and reducing operational costs

### Enterprise Backup service overview

- True incremental backup, keeping bandwidth and transfer time to a minimum with only file changes sent to the storage platform
- Back up and restore data for thousands of workstations, servers, Virtual Machines, databases and third party public cloud services, all managed via a single console
- Self-validation and healing to ensure backups are recoverable
- Powerful end-to-end encryption using a variety of encryption methods
- Delivered from UK-based, mirrored, data centres and a highly-resilient network, featuring high-speed links to multiple providers

## How we work with you

### 1 - Design

Our experts can advise you on our Backup options and how they fit with your overall Business Continuity plan.

### 2 - Build

Work with us as we take you through a step-by-step service installation and a demonstration within your unique environment.

### 3 - Manage

We provide 24x7 management, monitoring and support of the Enterprise Backup platform.

### 4 - Evolve

We work with you to ensure the service continually meets your needs.

## Enterprise Backup business benefits

### Comprehensive

Enterprise-class protection of data across multiple devices and environments

### Flexible

Configured for your environment - supports public, private or hybrid cloud deployments

### Fast

Restore your critical data within minutes
