- You stay protected. Security built into the network

Delivering your bandwidth intensive applications and data

Ethernet service overview

- Point-to-point circuits. Connect sites directly or to the Claranet core network
- Available as internet facing or part of your private MPLS network
- 24x7x365 UK support with proactive monitoring
- 99.5% service availability
- Dedicated symmetric IPv6 fibre connection
- Guaranteed bandwidth: 2Mbit/s to 10GbE
- Flexible tiering of bandwidth and regrading
- Unlimited data download
- Managed Cisco router. Includes on-site engineer router installation
- Security built-in. We continually monitor and protect our network

Options

- Choice of source carrier where applicable
- Enhanced monitoring
- QoS – six levels of application classification (MPLS only)
- Range of backup options to enhance availability to 99.9%, 99.95% or 99.99%

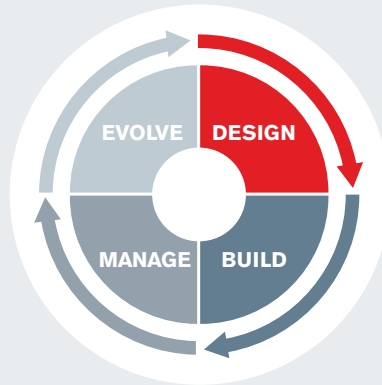

How we work with you

1 - Design

Our experts can advise you on which of our Ethernet options is best suited to your business needs.

2 - Build

Working with Claranet removes the burden of managing and carrying out the installation of your Ethernet service yourself, saving you time.

3 - Manage

We take care of the ongoing 24x7 management and monitoring of your service including managing the router. However, you retain the control you need with access to around the clock UK support.

4 - Evolve

We work with you to ensure your service is continually optimised to meet your needs.

Ethernet business benefits

Reach
