How we work with you

1 - Design

Our solution architects and service teams will work with you to design the optimum managed network solution suited to your business needs. We will accurately match the right internet connectivity services to your performance; availability, security and budget requirements.

2 - Build

Working with Claranet removes the burden of project managing and carrying out the migration and delivery of your network yourself, saving you time.

3 - Manage

We take care of the ongoing 24x7 management and monitoring of your service. However, you retain the control you need with access to around the clock UK support and online reporting.

4 - Evolve

We work with you to ensure your service is continually optimised to meet your needs.
