

Disaster Recovery Services

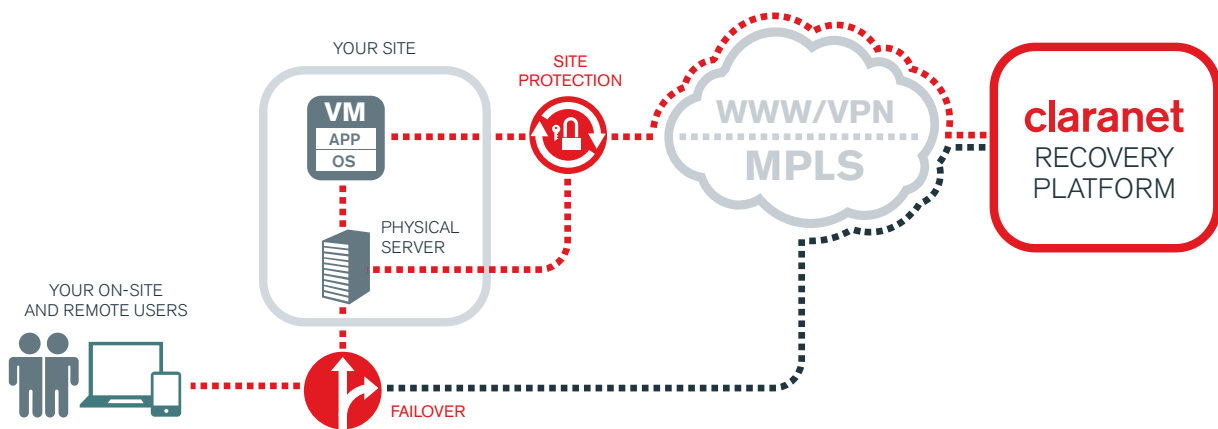

Server Availability powered by Double-Take

Protect your physical or virtual servers and critical applications with real-time replication to a secure recovery platform with automated failover.

Why choose Claranet for Server Availability?

- 14 years of experience and expertise in Disaster Recovery and Business Continuity solutions
- Wholly owned UK-based data centres and network for total data security and compliance
- Enterprise-class levels of performance and resilience
- 24x7x365 UK support

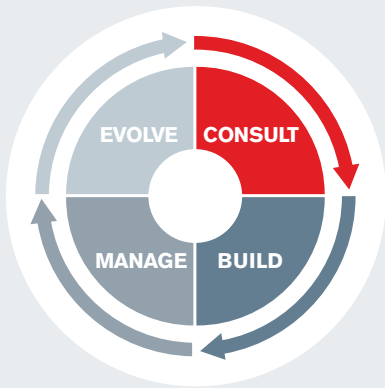

Comprehensive protection for your servers

Server Availability service overview

- Off-site protection for any combination of physical and virtual servers running your business-critical applications
- Replication and automated failover to the production-ready Claranet recovery platform
- Scalable, flexible and highly-resilient solution, providing near-zero data loss
- Simple and comprehensive protection via a single unified console
- Customisable point-in-time recovery

How we work with you

1 - Consult

Our experts can advise you on our Disaster Recovery services in order to meet your exact requirements in terms of technology, budget, Recovery Point and Time Objectives.

2 - Build

Working with Claranet removes the burden of project managing and carrying out the installation of your disaster recovery service yourself, leaving you free to focus on those tasks that truly differentiate your business.

3 - Manage

We take care of the ongoing 24x7 management, monitoring and testing of the Disaster Recovery solution. You have access to round-the-clock UK support.

4 - Evolve

We work with you to ensure your solution meets your growing needs.

Server Availability business benefits

Cost-effective

No upfront CapEx costs for infrastructure or for any unused production resources

Agile

Achieve better Recovery Time and Recovery Point Objectives

Secure

Virtual recovery environment hosted on Claranet's secure and compliant UK-based infrastructure
