Disaster Recovery powered by Zerto

Eliminate downtime for your virtualised applications

Protect your business against downtime and reduce complexity with Disaster Recovery designed for virtualised applications.
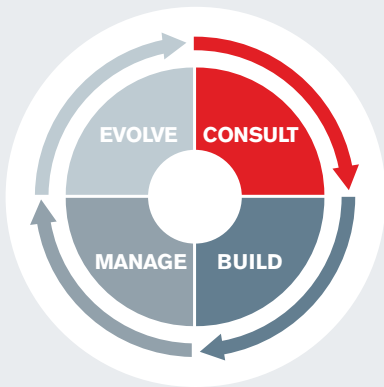

Why choose Claranet for Disaster Recovery?

- 14 years of experience and expertise in Disaster Recovery and Business Continuity solutions
- Wholly owned UK-based data centres and network for total data security and compliance
- Enterprise-class levels of performance and resilience
- 24x7x365 UK support

Disaster Recovery service overview

- Hypervisor-based replication to an off-site production-ready Claranet Recovery Platform
- Protect and recover entire applications consistently by grouping VMs into Virtual Protection Groups
- Ability to recover files, databases, VMs, applications or entire sites
- Restore from any point in time from up to 14 days of stored changes
- Automated failover and failback, non-disruptive to the production environment
- Scalable to thousands of VMs
- Pay only for what you use, making use of a purpose-built Claranet Recovery Platform

helping **our customers** do amazing things

How we work with you

1 - Consult

Our experts can advise you on our Disaster Recovery solutions in order to meet your exact requirements in terms of technology, budget, Recovery Point and Time Objectives.

2 - Build

Working with Claranet removes the burden of project managing and carrying out the installation of your disaster recovery service yourself, leaving you free to focus on those tasks that truly differentiate your business.

3 - Manage

We take care of the ongoing 24x7 management, monitoring and testing of the Recovery Platform. You have access to round-the-clock UK support.

4 - Evolve

We work with you to ensure your solution meets your growing needs.

Disaster Recovery business benefits

Cost-effective

No upfront CapEx costs for infrastructure or the need to run applications on dedicated hardware.

Agile

Achieve better Recovery Time and Recovery Point Objectives

Secure

Virtual recovery environment is hosted on Claranet's secure and compliant UK-based infrastructure

Flexible

Virtual recovery service has the ability to recover databases, VMs, applications, or entire sites.
